

SECTION 2: DISSEMINATION GOALS

Dissemination Goals

Our dissemination goals are based on the overall goals of the UEY national initiative:

- to build knowledge of healthy childhood development;
- to monitor and report on progress in children's outcomes over time in our community;
- and to communicate our findings widely, so that we can catalyze community action on issues that we identify during the course of our research, with the intention that they will lead to improvements in policies, programs and services for young children and their families

Target Audiences

Our target audiences are the groups that we want to reach with our research results; the people who can use our findings so that they can have an impact on policies and programs for children and families in our communities. They include:
